PROFILE

High-school student currently preparing for JEE at **Physics Wallah Vidyapeeth** while building real-world technology projects. Experience includes HTML, CSS, database setup, backend configuration, project planning, and AI-assisted development workflows. Passionate about transforming ideas into working products through collaboration, experimentation, and continuous learning.

EDUCATION

Physics Wallah Vidyapeeth, Hyderabad

JEE Main & Advanced Preparation (2025–2027)

Telangana State Board (Intermediate)

PROJECTS

VersaCareer AI

Career guidance platform with resume analysis and personalized recommendations. Contributed to backend planning, database organization, UI discussions, and AI-assisted workflows.

Desi-Drip

Fashion-focused application designed to help users explore styling ideas and recommendations. Worked on project setup, backend configuration, and testing.

SettleX V2

Expense-splitting application with collaborative planning, database organization, and backend setup.

Client Backend Project (Ongoing)

Currently developing and organizing the backend and database structure for a client-facing application while collaborating on requirements and implementation.

2D Games Collection

Browser-based games created using HTML and CSS to explore interactive web experiences.

ACHIEVEMENTS & HACKATHONS

Enginow Hackathon (WishCraft Warriors Team)

- Top 3 Rank in Round 1 (Aptitude Round) – Certificate of Excellence
- Qualified through Round 2 (Submission Round)
- Participated in Round 3 (Hackathon Round)

Demonstrated teamwork, problem-solving, and project execution skills in a competitive environment.
